

Repackaging and Application Migration Using AdminStudio® 10.0

Repackaging and Application Migration Using AdminStudio 10.0

Part Number: ADS-1000-TG00
Product Release Date: February 22, 2011

Copyright Notice

This product contains proprietary and confidential technology, information and creative works owned by Flexera Software, Inc. and/or InstallShield Co. Inc. and their respective licensors, if any. Any use, copying, publication, distribution, display, modification, or transmission of such technology in whole or in part in any form or by any means without the prior express written permission of Flexera Software, Inc. and/or InstallShield Co. Inc. is strictly prohibited. Except where expressly provided by Flexera Software, Inc. and/or InstallShield Co. Inc. in writing, possession of this technology shall not be construed to confer any license or rights under any Flexera Software, Inc. and/or InstallShield Co. Inc. intellectual property rights, whether by estoppel, implication, or otherwise.

All copies of the technology and related information, if allowed by Flexera Software, Inc. and/or InstallShield Co. Inc., must display this notice of copyright and ownership in full.

Trademarks

Flexera Software, AdminStudio, FlexEnabled, FLEXIm, FlexNet, FlexCertified, FlexNet Connect, FlexNet Connector, FlexNet Manager, FlexNet Publisher, Globetrotter, InstallShield, InstallShield Developer, InstallShield DevStudio, InstallShield Professional, and Package For The Web are registered trademarks or trademarks of Flexera Software, Inc. and/or InstallShield Co. Inc. in the United States of America and/or other countries. All other brand and product names mentioned herein are the trademarks and registered trademarks of their respective owners.

Restricted Rights Legend

The software and documentation are “commercial items,” as that term is defined at 48 C.F.R. §2.101, consisting of “commercial computer software” and “commercial computer software documentation,” as such terms are used in 48 C.F.R. §12.212 or 48 C.F.R. §227.2702, as applicable. Consistent with 48 C.F.R. §12.212 or 48 C.F.R. §227.2702-1 through 227.2702-4, as applicable, the commercial computer software and commercial computer software documentation are being licensed to U.S. government end users (A) only as commercial items and (B) with only those rights as are granted to all other end users pursuant to the terms and conditions set forth in the Flexera Software, Inc. standard commercial agreement for this software. Unpublished rights reserved under the copyright laws of the United States of America.

F Creating a Customized Virtual Package	471
Building a Microsoft App-V Application	471
Getting Started	473
Step 1: Specifying Package Information and Deployment Options	474
Step 2: Managing Files in an App-V Application	475
Step 3: Setting Isolation Options for Folders and Files	476
Step 4: Modifying Shortcuts to the App-V Application's Executable Files	478
Step 5: Modifying App-V Application Registry Settings	479
Step 6: Setting App-V Application Registry Isolation Options	480

Step 7: Performing Dynamic Suite Composition	481
Step 8: Modifying Build Options.	482
Step 9: Building an App-V Application	483
Step 10: Testing an App-V Application Using the App-V Application Launcher	485
Building a ThinApp Application	486
Getting Started	487
Step 1: Specifying ThinApp General Settings	488
Step 2: Managing Files and Folders in a ThinApp Application	489
Step 3: Setting ThinApp Isolation Options.	490
Step 4: Modifying Shortcuts to the ThinApp Application's Executable Files.	493
Step 5: Modifying ThinApp Application Registry Settings	494
Step 6: Modifying Build Options.	495
Step 7: Building a ThinApp Application	496
Building a Citrix Profile	498
Getting Started	499
Step 1: Specifying Citrix Profile Information.	500
Step 2: Specifying Operating System and Language Requirements	501
Step 3: Managing Files and Folders in a Citrix Profile	502
Step 4: Setting Isolation Options	503
Step 5: Modifying Profile Shortcut Settings	504
Step 6: Modifying Profile Registry Settings	505
Step 7: Modifying Build Settings	506
Step 8: Building a Citrix Profile.	507
G Using the Automated Application Converter	509

Opening an Existing Project	516
Using the Application Conversion Project Wizard	517
Using the Application Conversion Wizard to Perform Automated Package Conversion	528
Performing a Conversion Using the Application Conversion Wizard	528
Viewing Conversion Results	531
Launching Packages for Testing	532
Publishing Converted Packages	533
H AdminStudio Course Exercises.	535

Contents

Chapter 1: Introduction and Overview	537
Changing the View Settings	537
Installing AdminStudio 10.0	539
Creating a New Application Catalog	540
Chapter 2: Preparing for Application Migration	543
Creating a Storage Structure	543
Obtaining the Sample Data Files	543
Sharing the Development Machine With the VMware Machine	544
Sharing the Storage Structure Directory	544
Mapping the Shared Drives on the Virtual Machine	547
Chapter 3: Creating Workflow Templates and Projects	548
Creating a Workflow Template	548
Adding a New Project Using the New Workflow Template	551
Chapter 4: Repackaging Process Overview	552
Repackaging the Sample Application	552
Building a Repackager Project into a Windows Installer Package	554
Converting Repackager Files to a Citrix Profile	555
Performing a Pre-Conversion Evaluation and Converting a Windows Installer Package to a Citrix Profile	556
Chapter 5: Testing the Repackaged Installation	557
Chapter 6: Using InstallShield Editor	558
Creating a Template with the InstallShield Editor	558
Testing the Template	560
Building a Release with the Release Wizard	561
Validating the Windows Installer Package	562
Chapter 7: Advanced InstallShield Editor Topics	563
Preparing the Image for the Different User Tests	563
Separating User and Machine Data	563
Granting Permissions to Registry Data	565
Performing Uninstall Cleanup Test	566
Chapter 8: Using Custom Actions	567
Chapter 9: Creating a Windows Installer Transform	568
Creating a Transform with Tuner	568
Creating a Transform Template with the Editor	570
Chapter 10: Application Management	572
Chapter 11: Software Repository	573
Chapter 12: Conflict Solving	575
Chapter 13: Isolating Applications	576
Appendix E: PackageExpert	577
Appendix F: Creating a Customized Virtual Package	578
Using the Citrix Assistant to Build a Citrix Profile	578
Index	579
